

CORPORATE SUSTAINABILITY PRACTITIONERS DIALOGUE

SUSTAINABILITY AS THE NEW BUSINESS AS USUAL

April 14th | 10:30 am - 12:00 pm | Free Limited Spaces (via Zoom)

[Click here to register](#)

This message comes to you at a time of great distress and need. As a nation, we are facing the greatest challenge of our times, unprecedented in its scale and impact to our economy, society and collective future.

In light of the situation, Global Compact Network Malaysia is organizing an open dialogue with corporate sustainability practitioners to discuss and ideate on:

- How various organizations are looking to organize and deploy sustainability initiatives in light of the extreme change of business climate
- What would be the key focus areas for sustainability for the next 12 months in light of the pandemic
- How can corporate sustainability be leveraged as a critical component of Business Continuity Plans post crisis
- GCMY sharing on #mySDGAction2030 campaign as a “whole of private sector approach” for a more resilient and sustainable Malaysia

We look forward to welcoming you to this dialogue and to gain valuable inputs from your sharing and perspective.

Network Malaysia
