ACTIVITY AND PROTOCOL

Activity	Brief Description
Worker Monitoring by the ERT	<ul style="list-style-type: none"> Regulate hostels and centralized workers quarters, movement of workers from residences and workplace. Responsible for implementing awareness programs - Plantwide Employee Communication. It is recommended that companies provide a digital approach such as wearable devices / dongles that are equipped with a <i>real time contact tracing</i> system for employee monitoring. *The digital system can use the MySejahtera system *or other suitable systems. All data should be shared with MOH if necessary. Perform daily monitoring of employees (temperature and symptoms) according to SOP. Avoid the 3Cs (confined, crowded and close). Ensure the practice of the 3Ws (wash hands, wear masks and warn others to adhere to SOP) Conduct daily audits of COVID-19 SOP compliance. Establish a <i>Whistle blower</i> system among employees to identify SOP non-compliance.

Real Time contact tracing = A system or device that can record / collect information about employees, locations and places that they visit including individuals who they came into contact within a specified time period for tracking purposes, based on GPS tracking information including gender and nationality of the user

ACTIVITY AND PROTOCOL

Activity	Brief Description
COVID-19 Positive Case Management	<ul style="list-style-type: none"> • Employers MUST provide information of the positive employee and close contacts to the nearest District Health Office (PKD) in accordance with Section 11 (1) of Act 342. The positive employee must also inform PKD personally using the MySejahtera application. • The employer must appoint an officer in the ERT Team to manage all quarantine related matters for the employee and identify the patient's close contacts. The officer must be appointed from the manager level and above and report daily on the monitoring status. • All positive employees should wear a wristband from PKD or a private hospital / clinic recognized by the MOH. • While waiting for action from the PKD, the employer MUST direct all employees who are found positive to carry out quarantine in a special placement (employee dormitory / employee placement center / hotel subject to discussion and confirmation with the PKD) under the responsibility of the employer and provide identification to the employee. The placement must be strictly controlled and no entry and exit are allowed from the special placement except with the permission of PKD. Employers have to bear all the costs and provide adequate food and other basic necessities. • Every employee needs to inform their health status daily through the MySejahtera application. • Positive workers in special placements with severe symptoms should be referred to the nearest Clinic / Government Hospital / Private Hospital (recognized by MOH). • Positive employees who have been discharged can return to work after 10 days without undergoing a second screening test
