

POWERING RETAIL AND TRANSPORTATION SECTORS

Tuesday, 10 November 2020, 4.00 PM SGT

E-commerce has been transforming retail and transportation businesses for the past 30 years and has dramatically intensified its transformation recently. How has digitisation impacted businesses and treasury from a risk and liquidity management perspective?

RESHAPING THE HEALTHCARE & INSURANCE SECTORS

Wednesday, 11 November 2020, 4.00PM SGT

The adoption of technology enablers like cloud computing, AI, and data analytics has occurred rapidly on account of the pandemic, impacting the healthcare and insurance sectors. How has these technologies advanced product development and customer experience? What does the future ecosystem look like?

ADVANCING EDUCATION AND TELECOM SECTORS

Thursday, 12 November 2020, 4.00PM SGT

The way we communicate has changed profoundly within a short span of time. In less than 30 years, we've moved from phone calls and letters to email, instant messages, video chats and virtual reality. What's next for the education and telecommunications industry? How do businesses use digital transformation to their advantage in today's new world order and be future ready?
